Empowering Leaders — Enabling Success

Leadership Training and Support

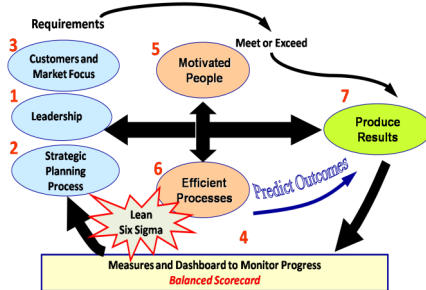

Our team partners with your leadership team to deploy customized “best value” solutions where you need them..when you need them.

Today’s leaders are asked to lead, manage, mentor and deliver results on behalf of clients, customers, staff and community. “Team AMP” helps your executive team craft a focused plan as leaders mobilize and transform the organization. Assessments, executive training and deployment coaching support the leadership team throughout the journey,

Integrated Strategic Planning

Our experienced team uses proven methodologies to facilitate the development of your organization’s strategic approach to envision a future state and develop the ways and means to reach your goals while remaining synchronized to the Baldrige criteria.

AMP’s Integrated Management System

The goal is Performance Excellence!

Customer and Market Focus

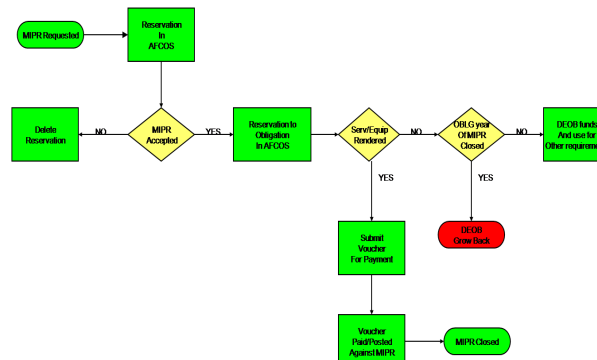

Central to any successful endeavor is a clear understanding of the customers and the markets you serve. “Team AMP” can guide you through a discovery process to uncover the specific wants and needs of your customers and how to transform those needs into specific and measurable components. We can also teach your team the tools necessary to solicit, interpret and apply ongoing feedback to sustain your connection to your customers.

Workforce Focus

“Team AMP” recognizes that the heart and soul of your business is your workforce. We can help you develop and implement strategies to ensure workforce engagement and empowerment by aligning the right people with the right skills in the right place.

Measurement Analysis and Knowledge Management

In conjunction with strategic planning, “Team AMP” can also help you define an overall vision for adopting Business Intelligence (BI) approaches and technologies to enhance the effectiveness of your organization. AMP will then take an enterprise-wide approach to help you align strategy, business process and change management across the organization.

“Team AMP” teaches a comprehensive tool set to identify, visualize and optimize organizational processes.

Process Management using Lean Six Sigma

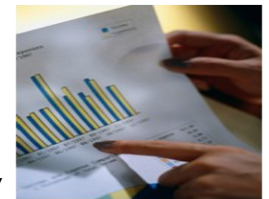

“Team AMP” uses an integrated approach for Continuous Process Improvement (CPI) through implementation of Lean Six Sigma methodologies. We are able to customize and deliver training courses to meet your organization’s needs as well as provide on-site and remote coaching to support project execution and advancement.

Course offerings include:

- Lean Six Sigma Executive Overview
- Lean Six Sigma Champion Training
- Lean Six Sigma Green Belt Course
- Lean Six Sigma Black Belt Course
- Lean Six Sigma Master Black Belt Course

Achieve and Sustain Results

Nothing says success clearer than results. “Team AMP” can show you and your organization how to clearly forecast, quantify and sustain results that

matter to your customers and that are aligned with your organizational goals and objectives. This core competency will provide the ways and means to target and sustain true Performance Excellence!
